Surf shop and surfboard locker business for sale – a profitable, fully operational business in an excellent location in the heart of Las Americas, the largest surfing hub on the island of Tenerife, just 100 metres from the island’s most popular waves, where all tourists and locals choose to go.

The transfer involves two premises: one specialising in the sale of sports equipment and the buying and selling of surfboards, and the other focused on locker hire for monthly subscribers who choose to store their sports equipment close to the waves. Both businesses have been established in the area for years, are profitable and well-known within the surfing community. There is undoubtedly potential for brand growth and business expansion.
