Plot with the charm of rural houses in ruins, located on the outskirts of La Matanza de Acentejo, at 1,600 m above sea level.

A possibility of obtaining a formidable property for one's own use or for rural tourism, enabling the ruins and the orchard with views of the ocean.

From the façade we enter a large patio with the old house on the right with a double entrance and in front, more or less in the middle of the plot, the old warehouse, still standing with its original roof. From the warehouse you go down the stairs to what used to be a large orchard with fruit trees, where it would be possible to make a recreation area with a pool and barbecue. The facade measures about 11 m and the length of the plot about 37 m.
